

The Full List of Custom Smart Contract Types

From simple payment systems to complex governance structures, our team of expert smart contract engineers can build any smart contract you can imagine. **Here's the full list of 50+ custom smart contract types** available at our smart contract development agency:

1. Staking contracts:

- a. Short description:
- b. Approximate costs: \$10,000 - \$30,000+

2. Oracle contracts:

- a. Short description:
- b. Approximate costs: \$15,000 - \$50,000+

3. DEX contracts:

- a. Short description:
- b. Approximate costs: \$30,000 - \$100,000+

4. Lending contracts:

- a. Short description:
- b. Approximate costs: \$20,000 - \$60,000+

5. Metaverse related contracts:

- a. Short description:
- b. Approximate costs: \$30,000 - \$100,000+

6. DeFi insurance contracts:

- a. Short description:
- b. Approximate costs: \$40,000 - \$150,000+

7. Governance (voting) contracts:

- a. Short description:
- b. Approximate costs: \$10,000 - \$30,000+

8. Digital identity contracts:

- a. Short description:
- b. Approximate costs: \$15,000 - \$30,000+

9. Escrow contracts:

- a. Short description:
- b. Approximate costs: \$10,000 - \$20,000+

10. Logistics contracts:

- a. Short description:
- b. Approximate costs: \$20,000 - \$50,000+

11. Gaming (GameFi) contracts:

- a. Short description:
- b. Approximate costs: \$30,000 - \$100,000+

12. Supply chain contracts:

- a. Short description:
- b. Approximate costs: \$30,000 - \$100,000+

13. Crowdfunding contracts:

- a. Short description:
- b. Approximate costs: \$20,000 - \$50,000+

14. Public records (e.g. medical records, car ownership, real estate and land ownership) contracts:

- a. Short description:
- b. Approximate costs: \$40,000 - \$100,000+

15. Investment contracts:

- a. Short description:
- b. Approximate costs: \$30,000 - \$100,000+

16. Prediction market contracts:

- a. Short description:
- b. Approximate costs: \$20,000 - \$60,000+

17. Data storage contracts:

- a. Short description:
- b. Approximate costs: \$15,000 - \$50,000+

18. IP rights records contracts:

- a. Short description:
- b. Approximate costs: \$15,000 - \$50,000+

19. Utility contracts for developers:

- a. Short description:
- b. Approximate costs: \$10,000 - \$30,000+

20. Complex cryptography contracts:

- a. Short description:
- b. Approximate costs: \$20,000 - \$70,000+

21. AI (artificial intelligence) and ML (machine learning) related contracts:

- a. Short description:
- b. Approximate costs: \$30,000 - \$150,000+

22. CDP (collateralized debt position, e.g. like MakerDAO) contracts:

- a. Short description:
- b. Approximate costs: \$20,000 - \$60,000+

23. Derivatives (futures, options, etc.) contracts:

- a. Short description:
- b. Approximate costs: \$30,000 - \$100,000+

24. Synthetic and tokenized assets contracts:

- a. Short description:
- b. Approximate costs: \$30,000 - \$100,000+

25. Privacy-enabling contracts:

- a. Short description:
- b. Approximate costs: \$20,000 - \$60,000+

26. Bond contracts:

- a. Short description:
- b. Approximate costs: \$20,000 - \$50,000+

27. Algorithmic stablecoin contracts:

- a. Short description:
- b. Approximate costs: \$30,000 - \$100,000+

28. Collateralized stablecoin (e.g. like DAI) contracts:

- a. Short description:
- b. Approximate costs: \$20,000 - \$60,000+

29. Real world assets (RWA) contracts:

- a. Short description:
- b. Approximate costs: \$30,000 - \$100,000+

30. Cross-chain communication contracts:

- a. Short description:
- b. Approximate costs: \$30,000 - \$100,000+

31. Gambling contracts:

- a. Short description:
- b. Approximate costs: \$30,000 - \$100,000+

32. NFT fractionalization contracts:

- a. Short description:
- b. Approximate costs: \$20,000 - \$60,000+

33. Launchpad contracts:

- a. Short description:
- b. Approximate costs: \$20,000 - \$60,000+

34. Auctions contracts:

- a. Short description:
- b. Approximate costs: \$20,000 - \$50,000+

35. NFT marketplace contracts:

- a. Short description:
- b. Approximate costs: \$30,000 - \$100,000+

36. Indices (e.g. index fund) contracts:

- a. Short description:
- b. Approximate costs: \$20,000 - \$50,000+

37. Tokenized vaults (e.g. staking, yield farming and options vaults) contracts:

- a. Short description:
 - b. Approximate costs: \$20,000 - \$60,000+
- 38. Multi-signature (multisig) wallet contracts:**
- a. Short description:
 - b. Approximate costs: \$10,000 - \$30,000+
- 39. Proxy upgradeable contracts:**
- a. Short description:
 - b. Approximate costs: \$15,000 - \$30,000+
- 40. Reserve currency contracts (e.g. like the Olympus DAO's OHM):**
- a. Short description:
 - b. Approximate costs: \$30,000 - \$100,000+
- 41. Yield aggregator contracts:**
- a. Short description:
 - b. Approximate costs: \$20,000 - \$60,000+
- 42. Flash loan contracts:**
- a. Short description:
 - b. Approximate costs: \$30,000 - \$60,000+
- 43. DEX trading contracts:**
- a. Short description:
 - b. Approximate costs: \$30,000 - \$60,000+
- 44. Factory contracts for other contracts:**
- a. Short description:
 - b. Approximate costs: \$20,000 - \$60,000+
- 45. Payment contracts (e.g. payments and royalty splitters, ERC20 and ether dispersers and payments streaming):**
- a. Short description:
 - b. Approximate costs: \$10,000 - \$30,000+
- 46. Contracts or tokens with the whitelist/allowlist/blacklist add-on:**
- a. Short description:
 - b. Approximate costs: \$10,000 - \$30,000+
- 47. Real estate related contracts:**
- a. Short description:
 - b. Approximate costs: \$30,000 - \$100,000+
- 48. Energy contracts (e.g. carbon tokenization):**
- a. Short description:
 - b. Approximate costs: \$20,000 - \$60,000+
- 49. HR related contracts:**
- a. Short description:
 - b. Approximate costs: \$20,000 - \$50,000+
- 50. Company shares (e.g. cap table and startup equity) contracts:**

- a. Short description:
- b. Approximate costs: \$30,000 - \$100,000+
- 51. Charitable giving contracts:**
 - a. Short description:
 - b. Approximate costs: \$10,000 - \$30,000+
- 52. Domain name contracts:**
 - a. Short description:
 - b. Approximate costs: \$10,000 - \$30,000+
- 53. Subscription payments contracts:**
 - a. Short description:
 - b. Approximate costs: \$20,000 - \$40,000+
- 54. Mock contracts:**
 - a. Short description:
 - b. Approximate costs: \$5,000 - \$15,000+
- 55. Internal utility contracts:**
 - a. Short description:
 - b. Approximate costs: \$10,000 - \$30,000+
- 56. Faucet contracts:**
 - a. Short description:
 - b. Approximate costs: \$5,000 - \$15,000+
- 57. Vesting contracts (e.g. for DAO treasuries, team members and investors):**
 - a. Short description:
 - b. Approximate costs: \$10,000 - \$30,000+
- 58. Treasury management contracts:**
 - a. Short description:
 - b. Approximate costs: \$20,000 - \$60,000+
- 59. Cybersecurity contracts:**
 - a. Short description:
 - b. Approximate costs: \$20,000 - \$60,000+
- 60. Multicall contracts:**
 - a. Short description:
 - b. Approximate costs: \$10,000 - \$30,000+
- 61. Timelock contracts:**
 - a. Short description:
 - b. Approximate costs: \$10,000 - \$30,000+

If you have a specific smart contract in mind that's not on our list, please reach out to us directly via email at contact@tokenflow.ai or by scheduling a 30 minute free

consultation call with us [here](#). We love challenges and are always eager to help you out. **If you can imagine it, we can build it!**
